

Silent Gliss

METROPOLE

Redefining curtain poles

Metropole has an internal gliding channel that allows the curtains to hang directly from our unique two-component gliders, omitting the need for rings – giving the appearance of a pole but the ease and usability of a Silent Gliss track.

Brackets attached to the top of the pole allow the curtain to move smoothly throughout the complete length of the pole – making it ideal for wide windows.

COLOURS

From striking metallics to muted and neutral shades, Metropole offers something to suit any colour scheme. The aluminium profiles, endcaps and finials are perfectly colour matched.

VERSATILE FITTING

Silent Gliss offer a variety of brackets for ceiling or wall mounting. Colour matched to the pole, subtle details such as magnetic covers ensure discreet but secure fitting.

CURVES

Metropole can be forward and reverse bent to fit perfectly to bay windows or other curved applications.

SUSTAINABLE

Silent Gliss products are manufactured within an environmentally friendly, safe and socially responsible framework. We strive for sustainable growth through the harmonisation of economical, ecological and social factors.

Quality first.

Fabrics – beyond decoration

The Silent Gliss Collection sets itself apart by considering both the fabric's texture and technical features. We offer a wide range of fabrics, styles and colours that balance function and design across all of our window treatment systems.

We include fabrics with special functions such as acoustic performance, superior light management, antimicrobial and environmental considerations. All of our fabrics are flame retardant and have been extensively tested on our systems to ensure consistent hanging behaviour.

Wave curtain heading

Silent Gliss has created a unique curtain heading system that turns traditional curtains into a striking, modern design statement.

As an alternative to traditional style headings, Wave uses the innovative 2C glider-cord to achieve a more contemporary look throughout the curtain drop: when opened, the curtains stack back neatly, and when closed the fabric hangs in a smooth, continuous wave.

Metropole is suitable for all curtain headings that hang underneath the pole.

The Architects of Silence

Silent Gliss is the leading global supplier of premium interior window treatments. Since 1952 we have been tirelessly committed to the development of the worlds' smoothest, quietest systems using state of the art technology.

Driven by customer needs, Silent Gliss offers functional and durable products. Expert technical advice coupled with installation and support services complete the offer. Silent Gliss stands for innovative, sustainable, tailor made solutions, exceptional design and first-class quality.
